IN STRAITS OF KOREA

FLEETS OF RUSSIA AND JAPAN SAID TO BE NOW ENGAGED IN CONFLICT.

RUMOR CURRENT IN TOKIO

NO DETAILS GIVEN OF THE ALLEGED BATTLE FOR COMMAND OF THE SEA.

Tokio, May 27.—It is rumored here that the Japanese and Russian fleets under Vice Admiral Togo and Vice Admiral Rojestvensky have engaged in the Korean straits.

VLADIVOSTOK VESSELS SAIL.

Leave That Port and Go in a Southerly Direction.

Tsingtau, May 27.—A private telegram received here says that the Russian Vladivostok fleet has left Vladivostok, going in a southerly direction.

CLEARED FOR ACTION

CHINESE CRUISERS PREPARE TO DRIVE RUSSIANS FROM SHANGHAI WATERS.

WIN A LAND BATTLE

Shanghai, May 27.—The Russian war vessels that were off the Saddle Islands left Friday night. The Chinese authorities ordered the vessels of the Russian fleet, which were anchored off Woosung, to leave within twenty-four hours. The Russians thus far have entirely ignored the order.

London, May 27.—The Shanghai correspondent of the Daily Express says: "All the Chinese cruisers in these waters cleared for action Saturday and the taotai went to the Russian consulate and demanded that the Russian ships leave within twenty-four hours." Cabling from Shanghai, the correspondent of the Daily Mail says he believes the vessels of the Russian Baltic squadron off Saddle Islands have proceeded on their voyage and gives a rumor that the remainder of the Russian fleet is in the neighborhood of Suchan, province of Shanghai.

The correspondent says that President Roosevelt has wired the viceroy and the taotai commanding their steps to preserve Chinese neutrality.

Shanghai, May 27.—The Russian war vessels that were off the Saddle Islands left Friday night.

The Chinese authorities ordered the vessels of the Russian fleet, which were anchored off Woosung, to leave within twenty-four hours. The Russians thus far have entirely ignored the order.

TO PURCHASE SAKHALIN.

Russian Paper Says United States Is in the Market.

St. Petersburg, May 27.—The Tenchestua, a radical anti-government organ, prints the rumor that the United States government is in the market for the purchase of the Island of Sakhalin. The paper says that the United States government evidently believes that it can pick up the island with its rich forests and mines at a bargain, as Russia is unable to protect it.

Washington, May 27.—The above story is pronounced as totally unfounded here.

ON THE VERGE OF STARVATION.

Inhabitants of Eastern Siberia Suffer From the War.

St. Petersburg, May 27.—The Russky Slavo of Moscow prints a dispatch from Vladivostok which indicates that the inhabitants of the whole maritime region of Eastern Siberia, including the Island of Sakhalin, and the Kamchatka peninsula, are facing starvation on account of the situation produced by the war. The dispatch concludes: "Should the war continue six months longer, starvation will be universal in all this remote region."

FOUR MEN BADLY HURT.

Mimic Battle of Paardeburg May Prove Fatal to One Participant.

New York, May 27.—Three men were seriously injured and another may die as a result of being trampled on in the charge of the New South Wales lancers and the Highland brigade at the Boer spectacle at Brighton Beach at night. The accident occurred in the tableau representing the battle of Paardeburg, when more than 800 men are on the field. After the fight is over the nurses and the Red Cross orderlies go over the field to pick up the dead and injured.

When the nurses ran out on the field with their stretchers they found Charles Stewart and James Hardner, British gunners; John Barlow, a cavalryman, and Piet Gonner, one of the Boer horsemen, badly trampled by the British horses. They were picked up and carried to the emergency hospital on the grounds, where it was said that Barlow was probably fatally hurt.

GREAT FINANCIER DEAD.

Baron De Rothschild Passes Away at Paris After a Brief Illness.

Paris, May 27.—Baron Alphonse de Rothschild, head of the French branch of the banking house bearing the name of Rothschild and governor of the Bank of France, died at 4:30 a. m. from acute bronchitis, aggravated by gout. The eminent financier had been sinking slowly for many days, but there was no apprehension that his death was imminent. The announcement of the baron's death caused widespread regret, for besides his position in the financial world Baron Alphonse was known for his lavish charities.

Indicted for Blackmail.

Sioux City, Ia., May 27.—Joseph C. Francis, who is charged with attempting to blackmail Jacob Feldner, a wealthy farmer living near Holly Springs, was indicted by the United States grand jury, which made its report during the day. Francis, who is eighteen years of age, is alleged, sent threatening letters to Feldner, notifying him to deposit \$1,500 in cash in a rural mail box near Holly Springs or lose his property and perhaps his life.

WIN A LAND BATTLE

COSSACKS ATTACK JAPS NEAR FAKOMAN AND DEFEAT THE BROWN TROOPS.

St. Petersburg, May 27.—News of a successful cavalry raid by Lieutenant Mitchenko comes in the following dispatch from General Linevitch to the emperor, dated May 25:

"A cavalry detachment commanded by Lieutenant General Mitchenko, composed of a portion of the South Caucasian brigade and Transbaikalian Cossacks, while engaged May 17 in repulsing the enemy to the southward, approached Shiloutchouan. On May 18, squadrons of the vanguard succeeded in reaching the Fakoman road, where they burned a stores depot and destroyed the telegraph for a considerable distance.

Large bands of Chinese bandits encountered by the detachment were partly annihilated and partly dispersed.

"On May 19 the main body arrived at the Fakoman-Shigudzy road and found the heights south of Fakoman occupied by a large Japanese force consisting of guards and infantry with machine guns. The Russians attacked and annihilated two Japanese companies and captured another company with all of its officers and two machine guns.

"The Russians seized a road on the right bank of the Liao river and dispersed near Shifudzy a large convoy with with rice, tinned food and fruit, destroyed the telegraph line and took several prisoners and 100 horses.

"On the return journey the Russians dispersed several bands of Chinese bandits. The prisoners taken number 5 officers and 234 men."

FOR THE PARTITION OF CHINA.

Russia's Decision to Extend Hostilities Into Mongolia the First Step.

London, May 27.—The Times' correspondent at St. Petersburg says that Russia's decision to extend the area of hostilities into Mongolia has evoked sentiment akin to consternation among the diplomats there. It is regarded, he says, as the first step toward annexation and the opening up of the question of the partition of China.

Martial Law at Warsaw.

Warsaw, May 27.—After nearly forty-eight hours of mob law the authorities interfered, patrols of infantry and Cossacks speedily dispersing the rioters who were engaged in the demolition of disorderly houses. The troops fired on the crowd, wounding three persons. Fifty arrests were made. Martial law was proclaimed late at night.

SITUATION BRIGHTER

MAYOR WEAVER OF PHILADELPHIA SUPPORTED BY MANY MORE COUNCILMEN.

PRESSURE IS TOO STRONG

ATTITUDE OF THEIR CONSTITUENTS CAUSES CITY FATHERS TO CHANGE FRONT.

Philadelphia, May 27.—"The situation is growing brighter every minute," said Mayor Weaver late in the afternoon when asked what progress he was making in his effort to defeat the extension of the lease of the city gas works. He would not give figures nor go into other details, but contented himself with saying he had received assurances from many councilmen who had voted for the lease last week that they would support him in his veto. Leaders of the Republican organization, which is advocating the lease, continue to remain silent. There are, however, signs that some of the councilmen are breaking away under tremendous pressure of their constituents and will probably go along with the mayor.

The all-absorbing point of interest is whether the mayor will succeed in getting enough to defeat the bill when it shall come up next Thursday for passage over his veto. The organization still stands on its statement that it will pass the ordinance in spite of his disapproval. The record up to the present time shows that the mayor has 10 select councilmen and 20 members of common council with him. In select council there are 42 members. To pass the ordinance over the mayor's veto the organization needs 26 votes and the mayor 17 to sustain him. The membership of common council is 84. Here the organization needs 51 and the mayor 34.

The First Important Move.

The first important move of the new administration—a move that was of vital importance to organization men who hold city contracts—was taken during the day when the new director of public works, Acker, annulled the advertisement for bids for street cleaning for 1906. The contract will aggregate about \$1,000,000. The contract for this year is held by the Vare Bros., one of whom is a state senator and another recorder of deeds. This action was taken by Director Acker in a letter to Samuel Sutcliffe, chief of the bureau of street cleaning. Mr. Sutcliffe was instructed to recall all

specification blank forms of proposals, etc. The new bids were to have been opened on June 1. While Mayor Weaver and Director Acker refused to discuss this action it was learned from an authoritative source that new specifications would be drawn up which will provide for a liberal extension of time for the submission of bids.

All the principal figures in the struggle for supremacy were kept behind closed doors most of the day. The mayor had numerous conferences with his attorneys and lieutenants on matters pertaining to the legal battle that will have its real start next Monday. In the offices of United States Senator Penrose, where organization headquarters have been temporarily established, many conferences were held during the day and evening. The deep silence at the headquarters remains unbroken, and the only word that can be had from the leaders is that the organization is confident of the outcome.

Struggle Is Growing Hotter.

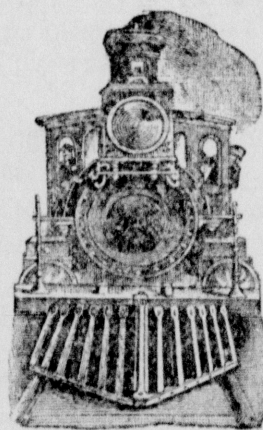

The struggle to hold or win councilmen is growing hotter, and many of the "city fathers" have expressed the wish that they had never been elected to the legislative body. They declare that they owe all their success in life to the organization and that it would be an extreme act of disloyalty to go

back on their leaders in a time of trouble. Then, on the other hand, the pressure brought to bear by neighbors and other constituents, and even business associates, to abandon the organization and uphold the mayor is so great that they do not know what they shall do. Some of the councilmen are pursued even into the privacy of their homes, and delegations are calling on them at all hours of the day and night.

"Resolved, That we, citizens of Philadelphia, without regard to party or politics, do hereby, before God and man, pledge our life, liberty and sacred honor to the complete overthrow of despotic methods in municipal affairs and the restoration of the American principles for which our fathers fought, and which shall ever be our glory while we remain worthy to be called their children."

Amid tremendous cheering and the waving of flags several thousand persons who were packed in the Academy of Music to hear prominent Philadelphians express their protest against the gas lease adopted the above quoted resolution. It was a scene that gave the opponents of the lease renewed inspiration and the cheering lasted for several minutes.

OCEAN YACHT RACE.

What It Means to Yachting Interests and How It Came About.

The importance of the international yacht race across the Atlantic ocean for the kaiser's cup in its effects upon yachting in general cannot be overestimated, says the New York Times. While it will prove nothing conclusive as to the value of models and rigs, it will affect the future of naval architecture not a little. Its most salutary influence, however, will be the establishment of an even more cordial feeling between American and foreign yachtsmen, which, it is hoped, will result in many more international contests of a similar nature.

To Commodore Robert E. Tod of the Atlantic Yacht club more than to any other one man does it owe its inception. It was he who induced Sir Thomas Lipton to offer a cup for an ocean race. When the kaiser signified his desire to give a suitable trophy for the same purpose, at the suggestion of the Earl of Lonsdale, Sir Thomas gracefully withdrew his offer and the kaiser's proffer was made.

The presence of the Earl of Crawford and Lord Brassey in the race, notably the latter, evinces the highest sportsmanlike spirit. These yachtsmen have made the trip more to encourage the sport they love than with a thought of the capture of the trophy. The Valhalla, to be sure, has an excellent chance to win, given favorable conditions, but the Sunbeam has none.

The German entry was to be expected. Judged on past performances and on appearance, she is a most formidable contestant. Herr Tietjin, who manages her, is a veteran in races on the other side. He met the Ingomar on her visit abroad last year and admired her handling immensely. He is a sportsman of the old school, modest in the recital of his chances and generous in his estimate of his opponents' skill.

Of the American entries the Atlantic and the Endymion were to be expected in the contest. They are essentially racers, built with that object in view. Both have given ample evidence of their capability. The Hildegarde, too, is a racer of tested strength, while Commodore Tod, with the Thistle, has long been ocean racing's foremost exponent. While the Fleur-de-Lys has some racing experience, it is surprising that so small a craft should contest the race.

The Alisa, too, while primarily a racer, is unfitted in rig to this sort of a competition. Nevertheless no owner is more serious in his purpose to gain the cup than Mr. Redmond, and none believes he has a better chance. In a gale she is likely to be decidedly uncomfortable, but Lem Miller believes he can handle her in her heavy rig and that he will be close by when the leader finishes.

The Apache and Utowana, while cruisers of repute and speedy, are not essentially racers. They are entered to foster the project and incidentally to win. Allison V. Armour, the Utowana's owner, has had a large share in the responsibility of the race's arrangement. He was in Germany when the proffer was made and was consulted by the kaiser as to the conditions. He was later appointed on the American committee to arrange its details.

WESTERN HEART WARMER.

Miss Eva Booth So Declares in Comparing Chicago and New York.

Miss Eva Booth, commander of the Salvation Army, arrived in Chicago from New York the other morning and spent most of the day in her rooms at the Wellington hotel, says a Chicago dispatch.

"The western heart is warmer and easier to reach than that of the New Yorker," she said. "I have seen but little of the city as yet, but I am sure there is a fine field for our work here, and it is being well received by the classes we wish most to reach."

Miss Booth hopes that a building similar to that being erected in New York at a cost of \$70,000 for assistance of working women may be founded in Chicago.

Boosters' Club an Aid to Churches.

There is a unique organization at Normal, the educational suburb of Bloomington, Ill. It is known as the Boosters' club and holds a meeting at a local cigar store every Sunday morning at 9:30 o'clock, says a Bloomington dispatch. The members then vote upon some church for attendance at the morning service. The church receiving the largest vote is selected, and the club marches in a body to that edifice. When the contribution basket is passed each member must contribute a dollar. As the membership of the club is fifty-five, the distribution of money is always an important item to the church chosen for attendance.

Color Change in German Army.

The authorities of the German army have decided to alter the color of the military uniform, says the London Standard. The dark blue color is to be discarded as used for service in the field, and a cloudy gray shade has been chosen. Three battalions of the German army are already supplied with the new uniforms. In shape the trousers are to remain as before, and the caps and helmets will not be changed. The tunics, however, are to be looser in the waist.

Well of Pure Oil.

Great excitement prevails at Rowsburg, Perry township, O., over the discovery of oil in a well on the property of S. Hohensil. A most peculiar fact connected with the discovery is that the oil is practically as clear when taken from the well as kerosene oil. To all intents and purposes it is refined oil and when placed in a lamp burns as well as the best quality.

ALL ARE HELD TO GRAND JURY

M. H. Rock, Frank Strawser and
W. C. Bickford Charged
with Raising a Check

HEARING CONCLUDED YESTERDAY

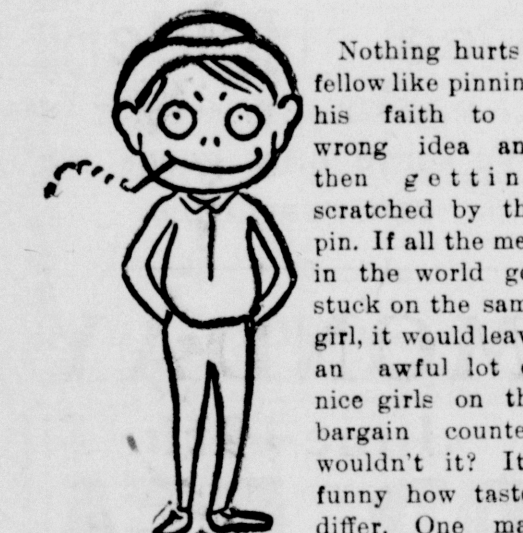

Bickford and Strawser Have Borne
Good Reputation--Rock Said
to Have Record

The hearing in the case of the state
against M. H. Rock, Frank Strawser and
W. C. Bickford was concluded late yes-
terday afternoon and on the evidence
introduced Judge Warner could do
nothing but hold them to the grand jury
which will not meet again until next
December.

The evidence throughout the hearing
disclosed the fact that all three men
had been out together on the night that
the check in question was raised from
24 cents to \$24. W. C. Bickford to
whom the check was drawn was pres-
ent but it is understood did not know
that the check was raised or had been
cashed. The same was the case of
Strawser. Strawser testified to receiv-
ing \$5 of the money from Rock, but he
did not know that it was money secured
by forgery.

Bickford and Strawser have the sym-
pathy of a large number of friends in
the city. They have borne good reputa-
tions and it does seem possible that
that they could have had anything to
do with such a crime. Rock on the
other hand, is said to have a different
record. He is said to have been mixed
before in such affairs.

Nothing hurts a fellow like pinning

in the world got
stuck on the same
girl, it would leave
an awful lot of
nice girls on the
bargain counter,
wouldn't it? It's
funny how tastes
differ. One man
will say, "I wouldn't wear that shirt to
a dog fight," and perhaps the very next
man will buy four of them and say,
"Why don't you always have a swell
bunch of shirts like these?" A little
man with a small head and features will
often insist on buying a great big top-
heavy hat, while a great, big, two-hun-
dred pounder will pick out a little dink-
ey shape that would look better on a
kid about my size; and still the world
wags on. My boss is a crank about
keeping a great variety of every kind of
goods; that's the reason people who
come here get suited; they don't have to
shop around. Do you trade at Linne-
mann's? If not, you certainly should.

LOOTED THE HOUSE

Sneak Thieves Strip the Summer Home of
F. B. Lynch at Gull Lake, Taking
Everything in Sight.

F. B. Lynch, who came up from St.
Paul and went out to his summer home
at Gull lake yesterday to make prepara-
tions for opening it for the season,
found on his arrival there that the place
had been visited by house breakers
sometime during the winter and prac-
tically stripped of its contents. The
house is located on the creek connecting
Gull and Round lakes, opposite the John
Bishop place, and was sold to Mr. Lynch
a year ago by a party of Brainerd
gentlemen who had owned it for several
years. Entrance was gained through a
door in the rear of the house by loos-
ening a bolt and the contents had been
carried bodily away, including all of the
dishes, bedding, tools and some of the
chairs and other furniture. Not con-
tent with this the thieves had forced
an entrance to the barn where he kept
his launches and stripped them of the
canvas coverings, besides carrying away
all the rope and other material they
could lay their hands on. This is not
the first time that summer cottages have
been looted in that vicinity and it is to
be regretted that the perpetrators can-
not be detected and brought to justice.
Mr. Lynch was obliged to send to Brainerd
to replenish his depleted stock of
personal property in order to be prepared
to entertain a party of distinguished
guests which he had invited from St.
Paul for a few days' fishing.

Terrific Race With Death.
"Death was fast approaching," writes
Ralph F. Fernandez, of Tampa, Fla.,
describing his fearful race with death,
"as a result of liver trouble and heart
disease, which had robbed me of sleep
and of all interest in life. I had tried
many different doctors and several med-
icines, but got no benefit, until I began
to use Electric Bitters. So wonderful
was their effect, that in three days I
felt like a new man, and today I am
cured of all my troubles." Guaranteed

**What Whiskey Costs
The Drunkard.**
Cure the Drink Habit With
Orrine and Save Money.

Whiskey drinking does not pay. Take
the lowest possible view, without count-
ing the loss of friends, the loss of busi-
ness, the loss of manhood that comes to
the drunkard; consider simply the ac-
tual money paid out, and see what it
costs in dollars and cents. Good author-
ity states that nearly one-third of the
wages of the laboring man goes over the
bar. How much are you contributing?
Figure up for one month how much you
take from your wife and children and
pay out in exchange for drink. The
total will astonish you, and you will
swear off.

Will-power alone will not cure the
habit. Use Orrine, the only guaranteed
cure for the habit. It can be used with-
out publicity or loss of time. It
strengthens the nerves, gives a good ap-
petite and refreshing sleep. The cost is
small, \$1 per box. Orrine is sold and
recommended by H. P. Dunn & Co.,
Central Drug Store, National Bank
Block, Brainerd, Minn.

When doctors fail try Burdock Blood

**M. J. REILLY
HAS RESIGNED**

Other Business Connections Would
Not Permit His Keeping Man-
agement of Ball Team.

M. J. Reilly is out of it so far as
base ball is concerned and his experi-
ence in the managerial line, though
brief, was pleasant, and he says that he
has learned a whole lot about the game
he never knew before.

Mr. Reilly was forced to resign as
manager of the St. Cloud-Brainerd team
for the reason that his assuming the
management of the Brainerd Grocery
company would not permit of his at-
tending to base ball. A meeting of the
fans was held in the office of H. I. Cohen
last night and the situation was thor-
oughly gone over. It was the general
sentiment that while the team so far
has made a rather bad showing, they
would all stick to them and try to
strengthen up.

The matter of electing someone to
succeed Mr. Reilly was discussed at
length. It was decided that a man
should be selected who has had some
experience in base ball and who is a
hustler. The fans could find no one in
Brainerd who could take the position
and it was decided to elect J. B. Pat-
tison, of St. Cloud. Mr. Pattison is one
of the best men that could be selected
in the two cities. He has had experi-
ence, having managed the St. Cloud
team two years ago, is an old ball
player and is possessed of sufficient busi-
ness ability to conduct the business in
a thorough manner.

The fans called Mr. Pattison up last
night and asked him if he would accept.
He said that he would and the deal was
closed immediately. The fans in the
two towns will now get together and
raise more funds and will back Mr. Pat-
tison in good shape.

Judge Sanborn, R. R. Wise and S. R.
Adair were appointed a committee to
get out and collect the contributions
made when the committee first went
around some time ago.

Manager Pattison will get busy at
once and it is expected that there will
be something doing in the lineup of the
St. Cloud-Brainerd team. One of the
first things he will do, in all probability,
will be to get a few pitchers and he will
also strengthen up in other departments.
He will devote his entire time to the
team this summer and expects to turn
out a fast bunch.

The Winnipeg team will be here next
Monday and Tuesday and Manager Pat-
tison will probably meet the boys here.

GOOD MOVING PICTURE SHOW.

There was not a very large audience
at the Brainerd opera house last night
to greet LaBar's big moving picture per-
formance, but the attraction is a good
one and there should have been many
more present. The pictures thrown on
the canvas are the best that have ever
been seen in this city. The "Moon-
shiners," a complete story of the experi-
ences of moonshiners and revenue of-
ficers in the mountains of Kentucky was
vividly and graphically depicted on can-
vas. The other pictures, comical and
otherwise, were also good. There was a
large number of illustrated songs in ad-
dition and it was without doubt the
most interesting performance of the
kind ever seen here. There was a matinee
this afternoon and tonight there will
be another performance. The prices
for tonight are only 35, 25 and 15 cents
and the company gives away some souv-
enirs which are quite novel and up-to-

The Medicine That Cures.

RENO, OKLA., May 11, 1908.

Wine of Cardui absolutely does cure sick women. I
consider it the most valuable medicine, and it is the
cheapest cure any sick woman can use, as it takes as a rule,
only a few bottles to effect a complete and lasting cure.
I especially recommend it for uterine or ovarian troubles,
inflammation and ulceration, painful, profuse or scanty
menstruation and it is a most valuable adjunct to use
during the gestation period, insuring easy childbirth and
speedy recovery.

It should have a place in every home as it is a true
friend to wife, mother and maiden and I most heart-
ily recom- mend it.

J. E. Buchanan
WRITER AND LECTURER.

Dr. Mrs. Buchanan is an authority on the science of medicine and cer-
tainly appreciates the great work physicians are doing for the relief of suf-
ferers. But this does not deter her from expressing her views in praise of
Wine of Cardui.

Mrs. Buchanan's high intelligence and long and successful experience
render her advice of great value. Wine of Cardui regulates menstruation,
cures bearing-down pains and relieves suffering women of the pain and
misery to which their sex is heir. You have the word of Dr. Buchanan and
thousands of other eminent women that Wine of Cardui will completely
cure you.

BREAKS OUT AFRESH

RIOTING OF A VICIOUS NATURE AGAIN MARKS TEAMSTERS' STRIKE IN CHICAGO.

WITHDRAW THEIR SUPPORT

BUILDING TRADES UNIONS DE- CLINE TO EXTEND ANY FUR- THER FINANCIAL AID.

Chicago, May 27.—Rioting broke out afresh again during the day in the teamsters' strike and although nobody was seriously hurt there were a number of vicious fights in the lumber district, during which the police were compelled to use their clubs and in one case their revolvers in order to disperse the mob.

A serious fight took place at the corner of Canal and Madison streets adjoining the Union passenger depots. The wagon of an express company, although protected by a policeman and a deputy sheriff, was attacked by a large crowd despite the fact that it bore on each side a large placard declaring that all people had been enjoined by the federal court from interfering with the wagon. The policeman displayed his revolver, but the crowd, paying no attention to him, rushed at the wagon and seizing the wheels, attempted to overturn it. A riot call brought from the Des Plaines street police station, four squares distant, a large force of officers who dispersed the crowd and arrested about forty of the most active in the disturbance.

The worst fight in the lumber district occurred at Twenty-second street and Ashland avenue, where a crowd of men and boys had all through the morning hurled stones and clubs at every passing lumber wagon. Finally a wagon on which Police Officer Baginski was a passenger came along and the mob greeted it with the usual volley of stones. They also threatened to attack the driver and the situation was so serious that the officer, drawing his revolver, fired six shots at the crowd, which broke and fled in wild confusion. None of the bullets hit anybody.

General Rioting Prevalent.
 During the evening general rioting was prevalent throughout the lumber district and particularly in the territory near the intersection of Thirty-fifth street and Central avenue. The lumber wagons returning from making deliveries were attacked by crowds at every available opportunity. Large numbers of men armed with clubs, slung shots and bricks accompanied by jeering women and excited children filled the sidewalks along Central avenue, Thirty-fifth street, Loomis street and Archer avenue, awaiting the passage of wagons. At Archer avenue and Loomis street, two trucks appeared with one policeman on each. The trucks were immediately bombarded with bricks and stones and scores of air rifles were brought into play. A bullet from one of these weapons seriously wounded Policeman James Fitzpatrick in the right hand. The two policemen drew their revolvers and fired over the heads of the rioters, holding them at bay until the drivers managed to reach their destination. A crowd of union pickets had been stationed in a saloon on Thirty-fifth street to block the passage of the trucks. The police dashed into the saloon, used their clubs freely and chased the pickets down the street. The route to the yards was marked by repeated attempts to block the wagons and the police made numerous charges into the mobs. A man named Otto Toppen, claiming to be a union teamster, was arrested charged with having fired the shot that wounded Policeman Fitzpatrick.

Trolley Car Hits a Truck.
 During the excitement, a westbound Thirty-fifth street trolley car, going at full speed, struck a heavily loaded truck. Joseph Lappin and August Mousky, who were on the truck, were thrown to the ground and suffered severe internal injuries. The entire front of the car was smashed, and although it was filled with passengers, none of them was injured.

The strike spread in a small degree throughout the building trades. There were a number of instances where woodworkers refused to receive the material delivered by nonunion teamsters and walked out. This move in every instance was made by the men as individuals only. There was no official action taken by any of the material trades unions looking to active sympathetic support of the teamsters' strike. Several labor leaders declared that there is no prospect in their opinion of any complete tie-up of the building trades by a strike of the building men. It is an unwritten law of the Carpenters' union that its members will not work under police protection and while no authorized strike may be in operation it is obligatory upon the men under the rules of their union to receive no material handled by nonunionists.

There is no movement on foot at present looking toward a settlement of the strike. Mayor Dunne for the first time since the commencement of the teamsters' strike declared that he knew of no contemplated plans for peace. The mayor talked as though he had abandoned hopes of a settlement.

At a meeting of the Associated Building Trades at night, at which

twenty-nine trades associated with the building industries were represented, it was decided that no action would be taken which would tend to drag the building trades into the teamsters' strike. This action will go far toward restricting the strike to its present limits.

It was decided at the meeting to withdraw all the financial and moral support that the building trades unions have been giving to the teamsters thus far in the strike. This means a loss to the teamsters of \$1,000 a week.

A committee was appointed to convey to President Shea of the teamsters' union the action voted by the building trades. The news visibly affected him, and he replied: "I can't believe this is true. The building trades workmen are too loyal to unionism to take this position."

ON COMMITTEE REPORTS.
 Both Sessions of Presbyterian Assembly Devoted to Discussion.
 Winona Lake, Ind., May 27.—Both sessions of the general assembly of the Presbyterian church during the day were devoted almost entirely to discussion of the reports of the committee on forms of service and the committee on temperance.

For three hours the report on forms and service was debated by at least 100 speakers, chief among which were Dr. Henry Van Dyke and Justice Harlan of the United States supreme court. The debate was about equally divided, with the result that the report together with "the book of prayers" which it was suggested should be adopted by the general assembly as a part of a fixed form of service was referred to an enlarged committee.

The assembly closed late in the afternoon with a vigorous debate over the resolutions offered by the temperance committee.

Before adjournment the assembly passed a resolution censuring the management of any college or university permitting the students to drink intoxicating liquors. The use of tobacco and manufacture and sale of cigarettes was condemned.

CARL OLSON FOUND GUILTY.
 Convicted of Murder in First Degree at Towner, N. D.
 Towner, N. D., May 27.—After two hours' deliberation the jury in the case of Carl M. Olson, charged with the murder of Paul Peterson, returned a verdict of murder in the first degree, fixing a penalty of life imprisonment. The defendant for the first time showed signs of grief, breaking down and weeping like a baby when brought to his cell. Judge Toft fixed June 2 as the date for pronouncing formal sentence.

PREPARING FOR WAR.

 London, May 27.—The Christiania correspondent of the Daily Express sends a story of alleged warlike preparations at all strategic points on the Norwegian frontier for the purpose of meeting possibilities in connection with the dispute between Sweden and Norway on the question of separate consular representation.

Atlantic in the Lead.
 New York, May 27.—In the yacht race across the Atlantic, according to the latest reports, the Atlantic is leading, 150 miles ahead of the Hamburg. The Ailsa is about 186 miles astern of the German yacht, the Endymion is fourth, only a few miles behind the Ailsa, with the Hildegarde fifth. The others are apparently in the following order: Utowana, Valhalla, Thistle, Fleur de Lys, Sunbeam and Apache.

From Sioux City to Omaha.
 Lincoln, Neb., May 26.—L. W. Hill, vice president of the Great Northern railroad, who arrived at night on a trip by automobile from Sioux City, confirmed the report that the Great Northern would build from Sioux City to Omaha and possibly extend to Ashland, Neb., connecting at that place with the Burlington.

Southern Presbyterians.
 Fort Worth, Tex., May 27.—The forty-fifth general assembly of the Southern Presbyterian church adjourned during the evening to meet in Greenville, S. C., on the third Tuesday in May, 1906. The question of federation with other branches of the church was not settled.

French Governor Killed.
 Dakar, Senegambia, French West Africa, May 27.—Commissioner Coppolan, governor general of Mauritania, was assassinated at Thiakja May 12, by disaffected Moors. The Moors were pursued and four of them were killed. Four native soldiers were killed in the pursuit.

Hay Going to Paris.
 Bad Nauheim, May 27.—Secretary Hay has finished the course of medical baths here and will start at once for Paris, where Mrs. Hay awaits him. Mr. Hay has declined invitations to visit Emperor William and King Edward.

North Dakota Land Withdrawn.
 Washington, May 27.—The commissioner of the general land office has ordered the withdrawal from entry of 209,000 acres of land in the Minot, N. D., land district on account of the Williston reclamation project.

TRADE IS SEASONABLY QUIET.
 Pending a Clearer View of the Crop Outturn.
 New York, May 27.—Bradstreet's weekly review of trade says wholesale trade is seasonably quiet, pending a clearer view of crop outturn, which, owing to irregular or unsettled weather in wide areas, still lacks definite form. Cool weather is still a bar to fullest activity at retail. Manufacturing activity is still in large volume on orders previously booked. Speculative markets for wheat reflect technical conditions and short supplies in primary markets more clearly than they do the slight deterioration in quantity and quality indicated as resulting from recent backward weather, which has also been used as a lever to affect corn and cotton. Collections reflect little more than seasonable slowness and money is easy and in abundant supply. Rather more friction in labor matters is noted at Chicago, the expected ending of the teamsters' strike being delayed. Some few points of labor friction are noted in other cities. Despite efforts to accentuate less favorable happenings for stock speculative purposes there is abundant evidence that the country's consumptive requirements are on a large scale, heavily exceeding a year ago at this time, and the movement can be materially quickened by more seasonable weather allowing of belated retail buying materializing and ordinary crop developments occurring. Railway earnings for the first half of May exceed a year ago by 6.5 per cent. The cotton trade, after two years of depression and unsettlement, is experiencing a revival. Woolen goods, on the other hand, feel the influence of the great advance in raw material.
